## PYROIL™ CARBURETOR & THROTTLE BODY CLEANER

### DESCRIPTION:

Equipment coated with gum, varnish, carbon, or dirt becomes sticky and inefficient. Sticking PCV valves can cause excessive oil consumption. Sluggish chokes and throttle linkages increase fuel usage and harmful emissions. Gummy throttle plates and linkages can result in engine run-on. **Pyroil Carb & Throttle Body Cleaner** is a quality formula which contains a blend of effective cleaners to help restore engine efficiency and reduce gasoline consumption by quickly dissolving gum, varnish, sludge, grease, dirt and carbon deposits from carburetor throats, chokes and PCV valves. This fast action formula also removes deposits from throttle plates and its sealing area. The quick penetrating formula will clean hard-to-reach clogged passages and surfaces. Safe for oxygen sensors and catalytic converters.

Always turn off engine before use. Disconnect the air duct from the throttle body. Spray the throttle plate and inside throttle body with **Pyroil Carb & Throttle Body Cleaner**. Open throttle plate and clean sealing area. Wipe dry with a soft cloth. Reattach air duct. For large open areas, simply hold can upright 4-6 inches from part to be cleaned and spray.

PYC16	Pyroil Carb & Throttle Body Cleaner 12/13 oz.	0 28882 10001 4

### BENEFITS:

- Helps Remove Gum, Varnish, Sludge, And Carbon Deposits Instantly
- Cleans Carburetors, Chokes, PCV Valves, Throttle Linkages
- Safe For Oxygen Sensors, Catalytic Convertors, And Electronically-Controlled Carburetors
- Removes Throttle Body Deposits That Interfere With Air Flow To PFI, TBI, And Diesel Engines
- Contains No Chlorinated Solvents
- Low VOC Formula
