What Other Riders Are Saying...

<p>FIT</p> <p>FINISH</p> <p>DURABILITY</p> <p>FEATURES</p> <p>COST BENEFIT</p>	<p>COVERMAX DELUX MOTORCYCLE COVER</p> <p>It keeps the rain and snow off my Honda 750 Magna with a Street Shield as well as fitting it very well. I have to replace it every 5 or 6 years. I like the heat resistant area where the exhaust pipes touch the cover in case I put the cover on when the bike is still a little too warm.</p> <p>Dave - January 26, 2017 <i>(Rising Fawn, GA)</i></p>

FIT	GREAT WATERPROOF COVER
FINISH	Fits my HD Superglide and was easy to install and does the job!
DURABILITY	Mfontanella - June 17, 2015 <i>(Boston, MA)</i>

FIT	COVER
FINISH	It talks about weather resistant and my bike is outside all the time and I went to take it off my bike and the whole thing ripped right in the middle. Its like it became weather worn and was very thin on the top section by the seat. I always take the cover off carefully and even being careful ripped it.
DURABILITY	Sean - August 12, 2013 <i>(Kissimmee, FL)</i>

FIT	REALLY GOOD FOR THE MONEY
FINISH	I am about to replace this cover. I looked at my shopping history and saw that it lasted me from Sept of 08 until now (Dec 2012). So, four years and just now it started tearing. Survived couple of snowy winters in mountains of NC and kep my Honda Shadow dry for most part. Would buy again but it has gone up in price so will try my luck with another bargain.
DURABILITY	Dr.L - January 4, 2013 <i>(Asheville, NC)</i>
FEATURES

FIT	COVERMAX DELUXE
FINISH	The cover fit great, but 12 months later the material has began to dry rot!!!! And now is useless... would not recommend for long-term outside use.
DURABILITY	Griff - October 11, 2012 <i>(San Pedro, CA)</i>

FIT	RANCH
FINISH	The thing is too small for a harley fxr, bought the large one, just not big enough.

FIT	COVER FOR A 1987 HONDA SUPER MAGNA 700
FINISH	I ordered the large and would have been happier with the xl. Kind of a tight fit length wise. Other than that it promises to meet my needs since the bike is kept outdoors.
DURABILITY	Greg - August 9, 2012 <i>(Ottawa, ON)</i>

FIT	DOES ITS JOB WELL
FINISH	This is a replacement for the same brand/model that lasted 6 seasons. That one served me well. Based on how that one faded over the years, my bike was saved from a lot of UV exposure. Even as that one aged, it still protected the bike well from rain. I've also put it on over a wet motorcycle and the bike still dried off.
DURABILITY	Bill - July 20, 2012 <i>(Chicago, IL)</i>

FIT	COVERMAX DELUX MOTORCYCLE COVER
FINISH	The Touring/Full Dress 1500cc fits the V Star 1300 Tour perfect. I have only had it one month and use the cover under a carport. It has never been in direct rain so I don't know how well it works. This is the same brand my local Yamaha shop sells. I gave it a 4 on durability only because it is new and not in direct sun light or rain.

FIT	BIKE ALL-WEATHER COVER
FINISH	Excellent motorcycle cover, even with a windshield and luggage bag. Glad I read what size to get....perfect fit for my Vulcan 1700.
DURABILITY	Griff - November 3, 2011 <i>(Montgomery, AL)</i>

FIT	GREAT COVER
FINISH	Awesome cover. Put it on the bike during a rain storm and it protected the bike perfectly. The grommets work great and let the strap tighten on the bike. Stays on through strong winds that are in the area.
DURABILITY	Matt - July 29, 2011 <i>(Manteo, NC)</i>
FEATURES

FIT	COVERMAX DELUXE MOTORCYCLE COVER
FINISH	Fits appropriately, has air vents for breathability, fabric is flexible and durable and the previous cover lasted four years. This past winter it upheld through abnormal weather conditions which is why I wanted the same brand and QUALITY as a replacement.
DURABILITY	Wanda G. - June 2, 2011 <i>(Bronx, NY)</i>

FIT	COVER
FINISH	The cover looks and functions well. My only issue is that from the original picture it looked as though the cover would cover the bike to the ground. It doesn't. It covers just to bottom of the mufflers; the front wheel is covered to the center of the tire. But I figured that that was the way it was so I did not send it back.. I have a 1979 Honda cb750l..no sissy bar or bags...Thank you..
