Features & Benefits

The power sports AGM battery was designed for more than performance; it was designed for the enthusiast. Completely spill proof and leak proof; frequent replacement and high maintenance are over! The absorbed glass mat (AGM) technology increases power while improving rider and environmental safety. The key to this technology is the highly porous microfiber separators which completely absorbs and traps the electrolyte.

- AGM maintenance free design eliminates damage from acid spills & corrosion
- Comes factory filled, no need to add acid
- Environmentally friendly, 100% recyclable
- Sealed, ready to install, no activation required
- Positive terminal cap protects against short circuits and sparks during transport and storage.
- High density oxide provides maxim power per pound for dependable high cycling service.

## Product Details

Part Number: ETX12

Weight: 9.40lbs

Warranty: **3 months**
