

## 801 DOUBLE DENSITY OFF ROAD GRIP

New technology for double density compound fused in a unique grip.

The inner part is harder to better fix on the handelbar and avoid the problem of slipping.

The outside part is in special Progrid compound that reduces vibrations and keep your hands firm on grips. Great comfort and technology for your hands and for your ride.

**Available in all colors.**

**Hardness: SH 58 INSIDE – GEL SH 15 OUTSIDE**

**Made in Italy**

**Size: Ø mm 22-25 / Long mm 115**
